Instruction for Authors

Your paper should not have been previously published or be currently under consideration for publication any place else. You can visit our **AJSE Submission Page**, and submit your paper through **Submit Manuscript Online**. All papers are subject to peer review by **AJSE Review Process**. After your paper has been accepted, you must sign a **Copyright Transfer Agreement** with AJSE. Papers accepted for publication will be available free online.

AJSE invites original, previously unpublished, research papers, review, survey and tutorial papers, application papers, plus case studies, short research notes and letters, on both applied and theoretical aspects.

(a) Submission implies that the manuscript has not been published previously, and is not currently submitted for publication elsewhere. Submission also implies that the corresponding author has consent of all authors.

(b) If the authors provide a previously published conference submission, Editors will check the submission to determine whether there has been sufficient new material added to warrant publication in the Journal. The AJSE Publishers guidelines are that the submission should contain a significant amount of new material, that is, material that has not been published elsewhere. New results are not required; however, the submission should contain expansions of key ideas, examples, elaborations, and so on, of the conference submission. The paper submitting to the journal should differ from the previously published material by at least 50 percent.

(c) Upon acceptance for publication transfer of copyright will be made to AJSE Publishers, authors will not be requested to pay a publication charge.

(d) Manuscripts should be written in English. Paper submissions are accepted in MS Word and PDF, other formats will not be accepted. Authors are requested to follow AJSE Publishers guidelines for preparing their manuscripts (**MS Word**, **Latex**), papers should be formatted into A4-size (8.27" x 11.69") pages, with main text of 10-point Times New Roman, in single-spaced two-column format, authors are advised to follow the format of the final version at this stage. All the papers are usually 8 to 16 pages long and the **Review Process** may take approximately 1-2 months. In special cases, shorter or longer articles may be accepted with appropriate reasoning.

(e) Whenever applicable, submissions must include the following elements: title, authors, affiliations, contacts, abstract, index terms, introduction, main text, conclusions, appendixes, acknowledgement, references, and biographies.

(f) Authors may suggest 2-4 reviewers when submitting their works, by providing us with the reviewers' title, full name and contact information. This will speed up the review process, but the editor will decide whether the recommendations will be used or not.

(g) Please read our **Publication Ethics and Publication Malpractice Statement** and **Plagiarism Detection** before submitting.
